

Progress of 10YFP and scaling action

Umeå

16 November 2017

Charles Arden-Clarke, Head, 10YFP Secretariat

The 10YFP supports Sustainable Development Goal 12: ensuring sustainable consumption and production.

SDG Target 12.1: Implement the 10-year framework of programmes on sustainable consumption and production, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries.

The Indicators of Success Framework

Annual Reporting

REPORTING ON SDG TARGET 12.1

Indicator 12.1.1

“Number of governments developing, adopting, or implementing policy instruments aimed at supporting the shift to SCP.”

Primary Objective

To monitor the implementation and impacts of national policy instruments for sustainable consumption and production in the context of SDG 12.1.

10YFP ANNUAL PROGRESS REPORTING

Allows the 10YFP to...

Identify, replicate and scale up best practices.

Assess and improve performance to inform the planning of activities and allocation of funds.

Report and demonstrate progress for accountability to all actors and donors.

Communicate results to the wider public.

Mobilize political and financial support.

Results of Reporting

		Reported in 2016	Total reported	Unit of measurement
1.1	Projects supporting SCP	121	140	# of projects supporting SCP
1.2	Amount of financial resources (USD) made available	Pending verification	79.44 million USD*	USD made available in support to the shift to SCP
1.3	Training for SCP	26,598	32,533	Person days of training (PDT)
2.1	SCP Network	82	647	# entities engaged in the SCP
2.2	Outreach and communication for SCP	290	513	# of outreach and communication activities
2.3	Production of knowledge and technical tools	174	291	# SCP knowledge resources and technical tools produced
3.1	SCP in policy instruments	215	253	# of governments and other organisations making progress on policy instruments integrating SCP
3.2	SCP monitoring and reporting	2	49	# of governments and other organisations officially establishing or improving monitoring and reporting on SCP
3.3	Education to SCP	5	5	# countries having integrated or making progress in integrating SCP topics in education practices
3.4	SCP changes in practices	10	10	# changes in practices and production processes supporting the shift to SCP
3.5	SCP commitments	379	572	# commitments covering SCP
3.6	Coordination on SCP	12	16	# of new or improved inter-sectoral or multi-stakeholder mechanisms for coordination on SCP
3.7	Use of knowledge and tools**	Not reported	Not reported	# of downloads on SCP Clearinghouse and any other quantitative representation of use
4	Impacts	work in progress		

*This includes forecasting one some financial figures up until 2020.

**Reporting on 3.7: use of knowledge resources and technical tools, not reported on during pilot reporting process.

Annual Reporting

What are the objectives of reporting?

- ✓ **Showcase your efforts**, tools, progress and impact for the shift to SCP with a wide audience;
- ✓ **Put in context of 10YFP programmes** to support countries in the shift to SCP and for scaling up and replication
- ✓ **Share your experience and tools** – learn about those of others, find new partners;
- ✓ **Report on SDG targets** focused on SCP (49/169 in 13 goals) and especially target 12.1 on 10YFP – enhance your visibility
- ✓ Inform the development of the **10YFP Strategy 2018-2022**, and **find you place** in it prior to launch at HLPF 2018 New York

Challenges in 10YFP implementation

Transversal and specific

- ✓ Going to **scale, quickly** – how to build on the many but fragmented and disconnected SCP policies practices and initiatives?
- ✓ Linking the four **levels of action** – global, regional, national and local
- ✓ Forging **inter-ministerial cooperation** – most of the policies that matter for SCP are not written by Environment Ministries
- ✓ Engaging the **private sector** for action beyond words - incentivize
- ✓ Engaging **citizens and consumers** – need for broad based campaign
- ✓ **Funding for implementation** on the ground – linked to the scale issue, designing and implementing SCP policies initially costs money

Responses to implement at scale

Some options – to develop collectively

- ✓ **Portfolio approach** of programmes – add your initiative/action before developing joint activities, thus prove ***SCP works at scale***
- ✓ Link **national and local first** – eg in this room, work with regional economic bodies and Conventions (eg Baltic Sea) – ground *upwards*
- ✓ **Highlight economic and social gains** of SCP –other Ministries will mostly be motivated by these - need accurate, quantitative analysis
- ✓ Show that **SCP underpins a circular economy**, and *offers a competitive edge* for business – regulate when necessary
- ✓ **Mobilize actors** with campaigns – focus on NGO coalitions and media
- ✓ Move **beyond traditional donors** – development cooperation agencies, private foundations, progressive companies, visionary donors

10YFP Strategy 2018-2022 & HLPF (July 2018)

“The 10-year framework of programmes on sustainable consumption and production patterns should be reviewed at the end of five years to assess benefits, challenges and implementation”
